1. Principles

Schools are required under the Equality Act 2010 to have an accessibility plan. This plan sets out the proposals of how Christ’s College will seek to increase access to education for disabled students in the three areas required by the planning duties in the Equality Act 2010:

The purpose of the plan is to:

- Increase the extent to which disabled students can participate in the curriculum
- Improve the physical environment of the school to enable disabled students to take better advantage of education, benefits, facilities and services provided
- Improve the availability of accessible information to disabled students

We are committed to the inclusion of all students. Every individual is valued, and their achievements celebrated. We aim to treat all of our students fairly and with respect. This involves providing access and opportunities for all students without discrimination of any kind.

We support the entitlement of all students to a broad and balanced curriculum.

Each student is helped to achieve their maximum potential by identifying and meeting their needs and by overcoming potential barriers to learning.

The plan will be made available online on the school website, and paper copies are available upon request.

Our college is also committed to ensuring staff are trained in equality issues with reference to the Equality Act 2010, including understanding disability issues.

The school supports any available partnerships to develop and implement the plan.

Our college’s complaints procedure covers the accessibility plan. If you have any concerns relating to accessibility in school, this procedure sets out the process for raising these concerns.

2. Legislation and guidance

This document meets the requirements of [schedule 10 of the Equality Act 2010](#) and the Department for Education (DfE) [guidance for schools on the Equality Act 2010](#).

The Equality Act 2010 defines an individual as disabled if he or she has a physical or mental impairment that has a ‘substantial’ and ‘long-term’ adverse effect on his or her ability to undertake normal day to day activities.

Under the [Special Educational Needs and Disability \(SEND\) Code of Practice](#), ‘long-term’ is defined as ‘a year or more’ and ‘substantial’ is defined as ‘more than minor or trivial’. The definition includes sensory impairments such as those affecting sight or hearing, and long-term health conditions such as asthma, diabetes, epilepsy and cancer.

Schools are required to make 'reasonable adjustments' for students with disabilities under the Equality Act 2010, to alleviate any substantial disadvantage that a disabled student faces in comparison with non-disabled students. This can include, for example, the provision of an auxiliary aid or adjustments to premises.

In addition, this policy takes account of the following policies:

- Children's and Families Act 2014
- The Special Educational Needs and Disability Act (SENDA) 2001
- Education Act 2002, Education Act 2011
- Education (Special Educational Needs Coordinators) (England) Regulations 2014

The SEN and Disability Act 2001 as well as the Equality Act 2010 ensure the Local Committee has a duty towards disabled students:

- Not to treat disabled students less favourably for a reason related to their disability
- To make reasonable adjustments for disabled students, so that they are not at a substantial disadvantage
- To plan to increase access to education for disabled students
- Keeping Children Safe in Education, September 2021

3. Site Accessibility

- Christ's College has disabled access to all of its facilities. There is disabled access and parking at the front of the building and students can access the lift to get to all classrooms. Where students have restricted mobility, this is risk assessed and alternative arrangements are made to ensure students/staff can access the curriculum
- Christ's College has a medical suite with washroom facilities. There is also a non-gender specific toilet. This area has full disabled access to the college's car park/reception area, and to the internal corridors/classrooms
- Designated parking for Blue Badge Holders is available at the front of the college
- There are some additional washroom facilities on site designed specifically for disabled individuals to access
- All classrooms have an adjustable table for disabled students. In practical subjects such as Food and Nutrition, areas have been installed to allow disabled students to access the equipment, for example, the counter and the sink have been lowered
- Christ's College will continue to take into account the needs of its students, staff and visitors when planning and undertaking future site developments, for example, improvements to access, facilities, lighting, acoustics and colour schemes

In order to make continued improvements for students, Christ's College will:

- Conduct an annual review of incidents reported via the School Business Manager (SBM) regarding required site improvements, incidents and near misses, and also essential maintenance works
- Ensure that all areas have a full and in date Risk Assessment, and that a dynamic risk assessment is carried out at the very least when conducting ad hoc work
- Ensure that all students requiring a Personal Emergency Evacuation Plan (PEEP) have one in place, in order to safely evacuate a building in the case of an emergency
- Ensure compliance with the Trust's Medical Conditions Policy
