9th February 2024

Dear Parent(s), Carer(s),

The current Year 11 will soon complete their Science course. In a few months they should be ready to sit their GCSE Science Exams. All students will be assessed in all three Science over 6 papers at the end of the school year.

With this in mind we would like to offer students the opportunity to purchase revision workbooks. Workbooks will allow the students to check their knowledge and apply their understanding of the content they have covered and have begun to revise.

The retail price for the workbooks is £8.99 (combined science) and £5.99 for each of the separate sciences. We are able to pass on a school discount if we purchase directly from the publisher.

This useful resource offers short and long answer exam-style practice questions, covering all the Science topics the students could encounter in their exam.

There are both Higher and Foundation versions available for the Combined Sciences. If your child studies the separate Sciences, there are workbooks available for Biology, Chemistry and Physics.

If you would like to purchase the workbook for your child, then please order on SCOPAY **by Tuesday 20th February.**

Yours sincerely,

Mrs H Reid, Head of Science
