Policy Statement

Christ's College provides Religious Studies (RS) for all its students as required by law. Christ's College is a Church of England School, with a strong vision that is achieved through its core values. The Surrey Agreed Syllabus for Religious Studies is adapted to the specific needs of our context. Religious Studies plays a key part in the life of the school and is part of the core curriculum, as such it introduces students to Christianity and the other major world religions as well as ethical and moral questions.

The RS curriculum at Christ's College is a five year learning journey that enables students to grow in self-awareness and as religiously articulate global citizens. Throughout our 5 year RS programme students will develop cultural sensitivity, preparing them as cohesive and engaged members of their local and global communities. Students will develop the skills and knowledge needed to negotiate their own lifelong pursuit of spiritual growth and philosophical curiosity.

To achieve this aim, we offer students varied opportunities to:

- Appreciate the distinctive nature of religion and the contribution of religious and spiritual insights and values to the individual's search for meaning in life;
- Develop knowledge and understanding of Christianity and of other world religions;
- Develop interest in and support their own spiritual, moral, social and cultural development;
- Develop the ability to make reasoned and informed responses to religious and moral issues;
- Recognise the influence of beliefs, values and traditions on culture and community life.
